What is the plaintext password the insider added to his GitHub repositories?

answer: `PicassoBaguette99`

in the same file, we can get this answer and decode with base64.

```
53  </div>
54
55
56  <div class="wrap-input100 validate-input" data-validate = "Password is required">
57
58      Password: UGljYXNzb0JhZ3VldHRlOTk=
59      Password(base64)
60
61      <span class="focus-input100"></span>
62      <span class="symbol-input100">
63          <i class="fa fa-lock" aria-hidden="true"></i>
64      </span>
```

I use linux for my Operating System.

```
cyberdefence/L'espion$ echo UGljYXNzb0JhZ3VldHRlOTk= |base64 --decode
PicassoBaguette99                                /cyberdefence/L'espion$

9. File → office.jpg:

You have been provided with a picture of the building in which the company has an office. Which city is the company located in?

answer: **Birmingham**

I try search one by one this signs.

I Bingo, this is same place with another picture from google maps view.

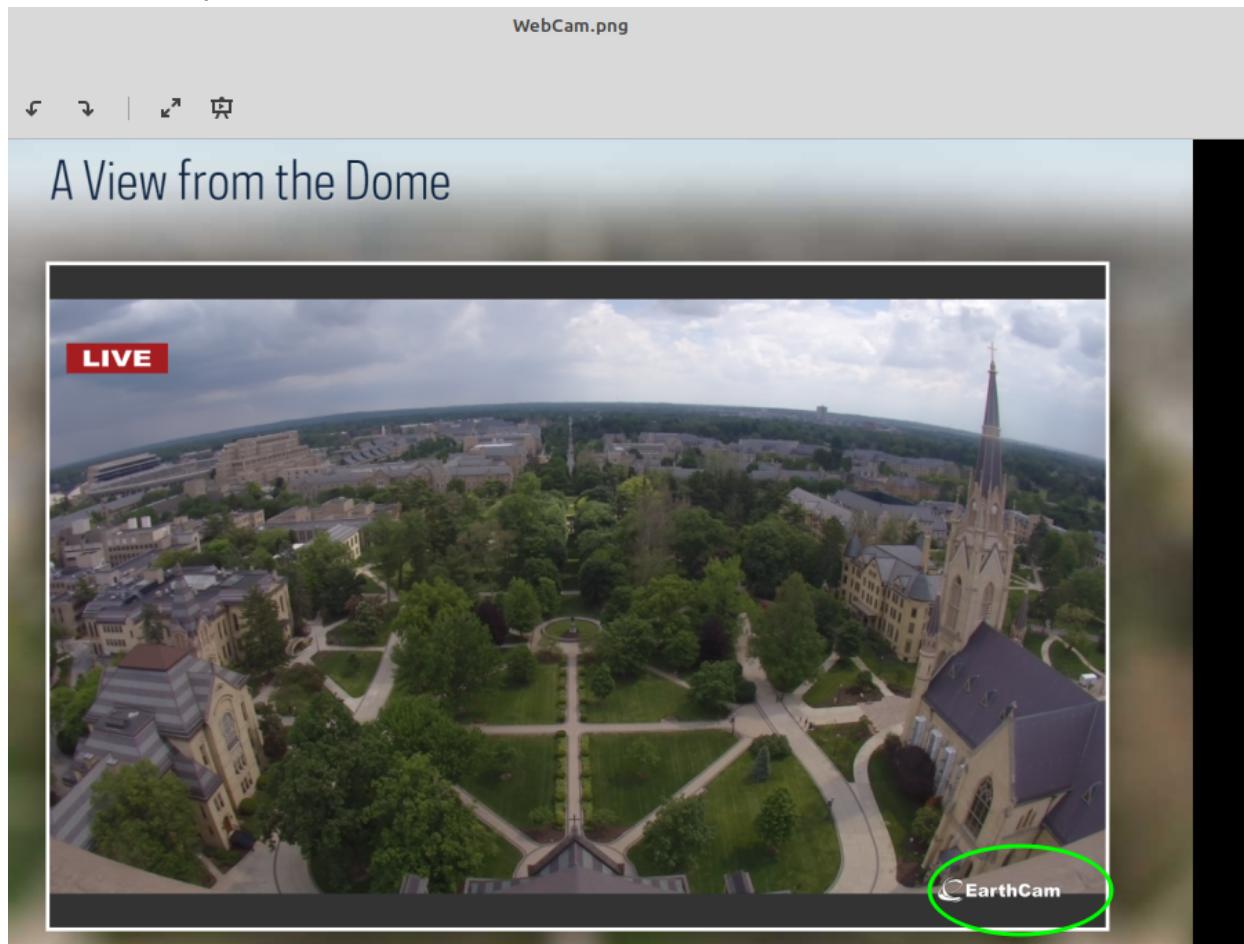

10. File → Webcam.png:

With the intel, you have provided, our ground surveillance unit is now overlooking the person of interest's suspected address. They saw them leaving their apartment and followed them to the airport. Their plane took off and has landed in another country. Our intelligence team spotted the target with this IP camera. Which state is this camera in?

answer: **Indiana**

I found the picture source.

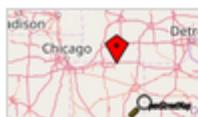

I try to match the top of some house for all country with **home** as keyword, but I got Bingo again :D
